

What analyses are possible? Do we have the data?

What is a priority (science, policy)

What is of participant interest?

By Region? NAM, EUR, EAS, SAS, GLO

- Surface O₃, CO (what sites?)
- O₃ Profiles (sondes)
- Column O₃, CO, NO₂ (satellite)
- O₃ Deposition
- N, S, and BC Deposition
- Surface PM_{2.5}
- AOD (AERONET, satellite)
- Aerosol Profiles (satellite, lidar, ...)
